UMBRIANO 24X24" (WINTER MARVEL)

A zero bevel edge and granite-like surface appearance make Umbriano a popular choice for sleek, modern projects as a paver or wall product (see U-Cara Multiface Wall System). Its unique mottled surface is achieved with ColorFusion Technology which randomly disperses rich color and granite particles to achieve a natural, non-slip texture. These characteristics make it a popular choice for pool decks. As well, Umbriano is factory sealed with EasyClean , an integral surface protection from stains. This is a significant benefit when Umbriano is used in driveways, outdoor dining areas and high traffic commercial projects.
